ABOUT ABOUT

Invest Puerto Rico

About Us Invest Puerto Rico

MANDATE

Invest Puerto Rico, a not-for-profit 501c3, was created by Act 13-2017 as the official business attraction organization for the island, leveraging the expertise of the private and public sectors.

MISSION

Promote Puerto Rico as a competitive investment jurisdiction to attract new business and capital investment to the island.

VISION

Serve as a transformational and results-oriented accelerator of economic development in Puerto Rico.

About Us Our Services

We help companies and investors establish their operations on the island by:

Providing data & information about Puerto Rico's economy & industry sectors.

Assisting with the process of identifying commercial & industrial real-estate for projects.

Connecting companies with the talent they need to operate.

Connecting organizations in the public, private, nonprofit & academic sectors.

Connecting investors with local projects & businesses seeking capital.

Building Upon Legacy

Biotech Innovation | R&D

Key partners and investments are further evolving the sector toward innovation with Research Centers, Gene & Cell Therapy, Clinical Trials & more.

The development of the Molecular Science Research Center (MSRC) has the objective of transforming the University of Puerto Rico into an international leader for medical research, molecular structure, cell biology, neuroscience, cancer, nanotechnology, and other related subjects.

A Comprehensive Cancer Center that will research cancer at basic and clinical levels, conduct experimental clinical trials, train doctors, scientists and other health professionals, and significantly bridge the gap between diagnosis and treatment in a specialized manner.

The Science Trust invests, facilitates, and builds capacity to continually advance Puerto Rico's economy and its citizens' wellbeing through innovation-driven enterprises, science, technology, and public. It is recognized as an innovation hub.

Supported by InvestPR and the Puerto Rico Department of Economic Development and Commerce (DEDC), this community includes airlines, airports, forwarders, integrators, pharmaceutical and medical device manufacturers, ground handlers, and haulers. The initial focus has been on cold chain management, specifically addressing temperature-controlled shipping.

Puerto Rico's Landing Pads

Streamlined Set-up for R&D, Innovation and Commercialization

- ▶ Turnkey PDMO (partnership development management organization) and 180,000 SF facility dedicated to research, clinical trials, and commercialization to advance R&D and pipelines faster in a cGMP facility.
- ▶ The PDMO partnership involves the design, construction, hiring, and maintenance of the facility. Plus, the PDMO can manage your HR, accounting, financing, supply chain, warehousing, and shipping & receiving.

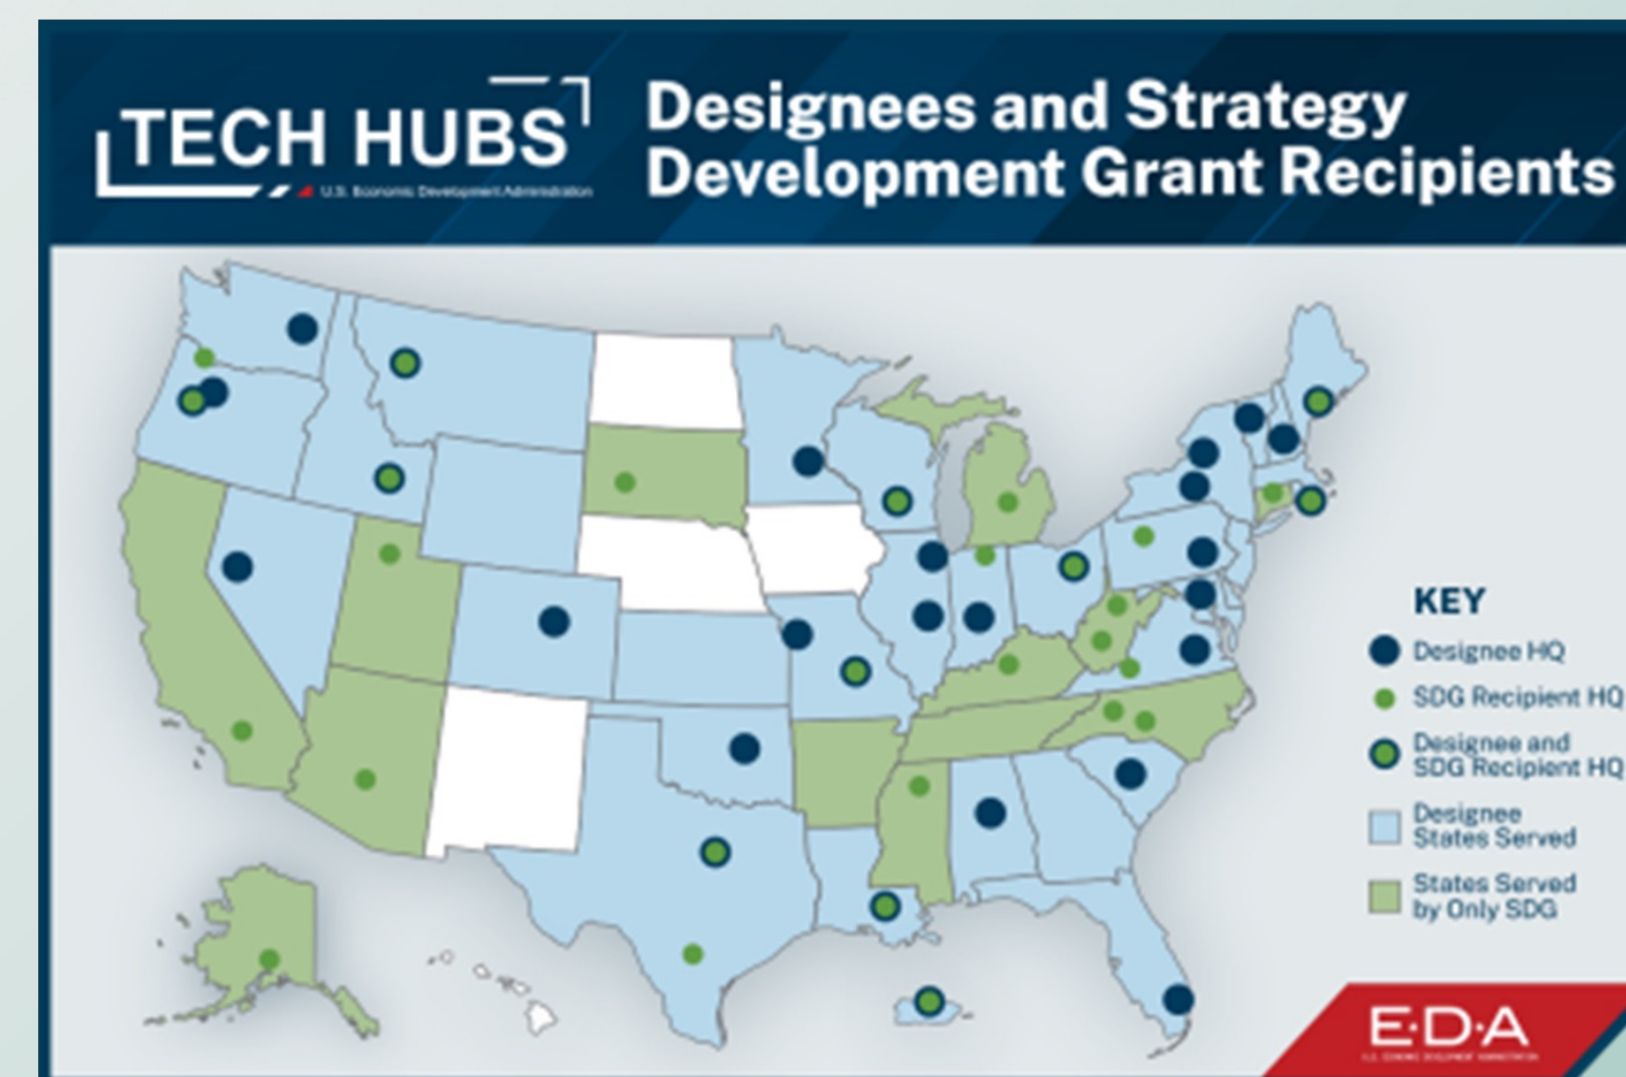

- ▶ Best known for its research in Cancer, Infectious Diseases, Neuroscience, and Community-based Participatory research with a focus on Hispanic health disparities.
- ▶ The ambulatory clinical research center (CAIMED) is one of the largest clinical research centers in Southern Puerto Rico aimed for drug and treatment trials.

The US Bioscience Tech Hub

Puerto Rico has been designated as a Tech Hub

The federal government has designated the **PR BioTech Hub**, which will advance the island as a global leader in biotechnology through fast-tracking the discovery, development, manufacturing, and supply of next generation biotechnology and medical device products

- ▶ On October 23, 2023, **President Biden** announced the designation of the inaugural 31 Tech Hubs.
- ▶ A **Tech Hubs Designation** is a strong endorsement of a region's plan to supercharge a critical technology ecosystem and become a global leader over the next decade.
- ▶ The **Tech Hubs Program** will invest directly in regions with the assets, resources, capacity, and potential to transform into globally competitive innovation centers in approximately 10 years, while catalyzing the creation of good jobs for American workers.
- ▶ **Puerto Rico's Tech Hub** will leverage the region's existing assets to make the U.S. biotechnology supply chain more resilient and meet the public health and national security challenges of tomorrow.

Puerto Rico's World Class Network

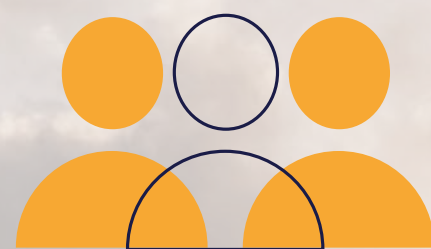

A Thriving Network of World-Class Business That Are Leveraging All The Island Has To Offer.

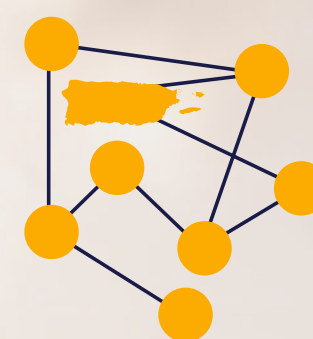

Value Proposition

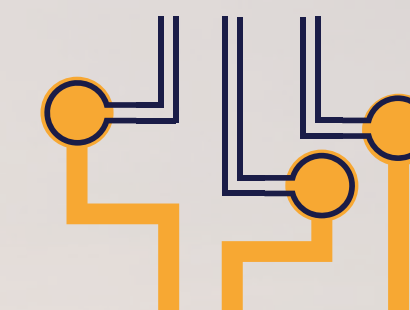

Invest with Confidence in a U.S. Jurisdiction

Tap into our People Power

Live & Work in Tropical Paradise

Invest with Confidence In a United States Jurisdiction

Puerto Rico Offers The Same Level Of Operational Security, Stability, & Protections as Mainland U.S.

The US Dollar is the official currency.

U.S. federal law, and all the framework and protections that go with it, apply in Puerto Rico; including intellectual property and patent protection.

U.S. banking laws and regulations apply, including the credibility and protections by the Federal Deposit Insurance Corporation (FDIC).

FDA and ISO regulations apply

Manufactured goods can be labeled as "Made in USA".

In Puerto Rico

Double Taxation Avoidance Agreement (DTAA)

United States

- ▶ **Federal Income Tax imposed by the Internal Revenue Code (IRC):** The DTAA applies to the Federal Income Tax of the US or in other words, the US income tax. However, the agreement does not apply to the following taxes:
 - ▶ **Accumulated Earnings Tax:** This tax is usually levied on companies whose retention ratio of earnings is unreasonable. The main intention of the introduction of this tax is to encourage companies to declare a dividend to the shareholders.
 - ▶ **Personal Holding Company Tax:** This tax is levied on closely held corporations where earnings are retained with an intent to avoid higher individual tax rates.
- ▶ **Social Security Taxes:** This tax is leviable on salaried individuals as well as self-employed taxpayers. This amount is used for maintaining the social security of the nation.
- ▶ **Exercise taxes imposed on insurance premiums and with respect to private foundations:** The DTAA applies to the premium paid to foreign insurers only to the extent the risks are not re-insured with a person who is not entitled to exemption from such taxes.

India

- ▶ Income Tax including a surcharge (excluding income tax on undistributed income of companies)
- ▶ Surtax

Location From India to Puerto Rico

- ▶ Around 3,500 Indians reside in Puerto Rico, the largest Asian population in Puerto Rico.
- ▶ The [Indian Association of Puerto Rico \(IAPR\)](#) is the organization that promotes and propagates Indian culture, tradition, and heritage in Puerto Rico by bringing together all the people interested in Indian culture, tradition, and heritage
- ▶ It takes around 17 hours to fly from Puerto Rico to Delhi.
- ▶ Indian citizens who wish to live in Puerto Rico would typically need to apply for the appropriate U.S. visa, such as a work visa (such as H-1B or L-1 visa), student visa (F-1 visa), or family-based visa (such as an immigrant visa or a non-immigrant visa for immediate family members of U.S. citizens or permanent residents). The specific visa category would depend on the purpose of their stay and their eligibility under U.S. immigration laws.

Puerto Rico

Trade Opportunities Between Puerto Rico & India

- ▶ The tariffs between India and the United States can vary depending on the specific product and its classification under the U.S. International Trade Commission (USITC) Harmonized System (HS) codes.
- ▶ Puerto Rico's exports to India primarily consist of pharmaceutical products and medical devices. These exports include generic drugs, biologics, and other healthcare products.
- ▶ India's pharmaceutical market is one of the largest in the world, and Puerto Rico's high-quality pharmaceutical products meet the demand for affordable medications in the Indian market. Additionally, Puerto Rico's medical device industry exports various medical devices and equipment to India, contributing to the healthcare sector in the country.
- ▶ While pharmaceuticals and medical devices are the main exports from Puerto Rico to India, there may also be other trade opportunities in sectors such as chemicals, agricultural products, and specialized manufacturing goods. The specific export dynamics can vary over time based on market conditions and trade agreements between the two countries.
- ▶ India is known for its textile and garment industry, and Puerto Rico imports a significant amount of textiles and apparel from India. This includes fabrics, clothing, and accessories.
- ▶ India exports agricultural products such as spices, tea, rice, and processed food items to Puerto Rico.

India In Puerto Rico

With over 150 skilled professionals, **Infosys** Aguadilla serves clients globally in regions such as the United States, Europe, the Middle East, and Africa. Customer satisfaction is our top priority. As a regional hub and center of excellence for the aviation and aerospace industry, Infosys Aguadilla is poised to deliver significant business value to clients in various sectors, including healthcare and government, locally and worldwide.

Aurobindo's new company, **Auro PR, Inc.**, plans to make a significant investment of around \$100 million over the next few years and will potentially generate close to 500 jobs. Auro PR's journey to Puerto Rico began at a Select USA professional conference, where the company connected with InvestPR. Company executives immediately saw the value of operating in Puerto Rico and began an exhaustive site evaluation process with various public and private stakeholders. The pharmaceutical company is very optimistic about its new operation in Caguas.

ASSIDUUS is a successful provider of a comprehensive package of end-to-end E-commerce solutions. With their team's extensive technical expertise and experience in developing and expanding direct-to-consumer (D2C) brands, they are driven by a young and passionate workforce. Crucially, they deeply understand the functioning of global E-commerce marketplaces.

Why **zByte** @ Puerto Rico:

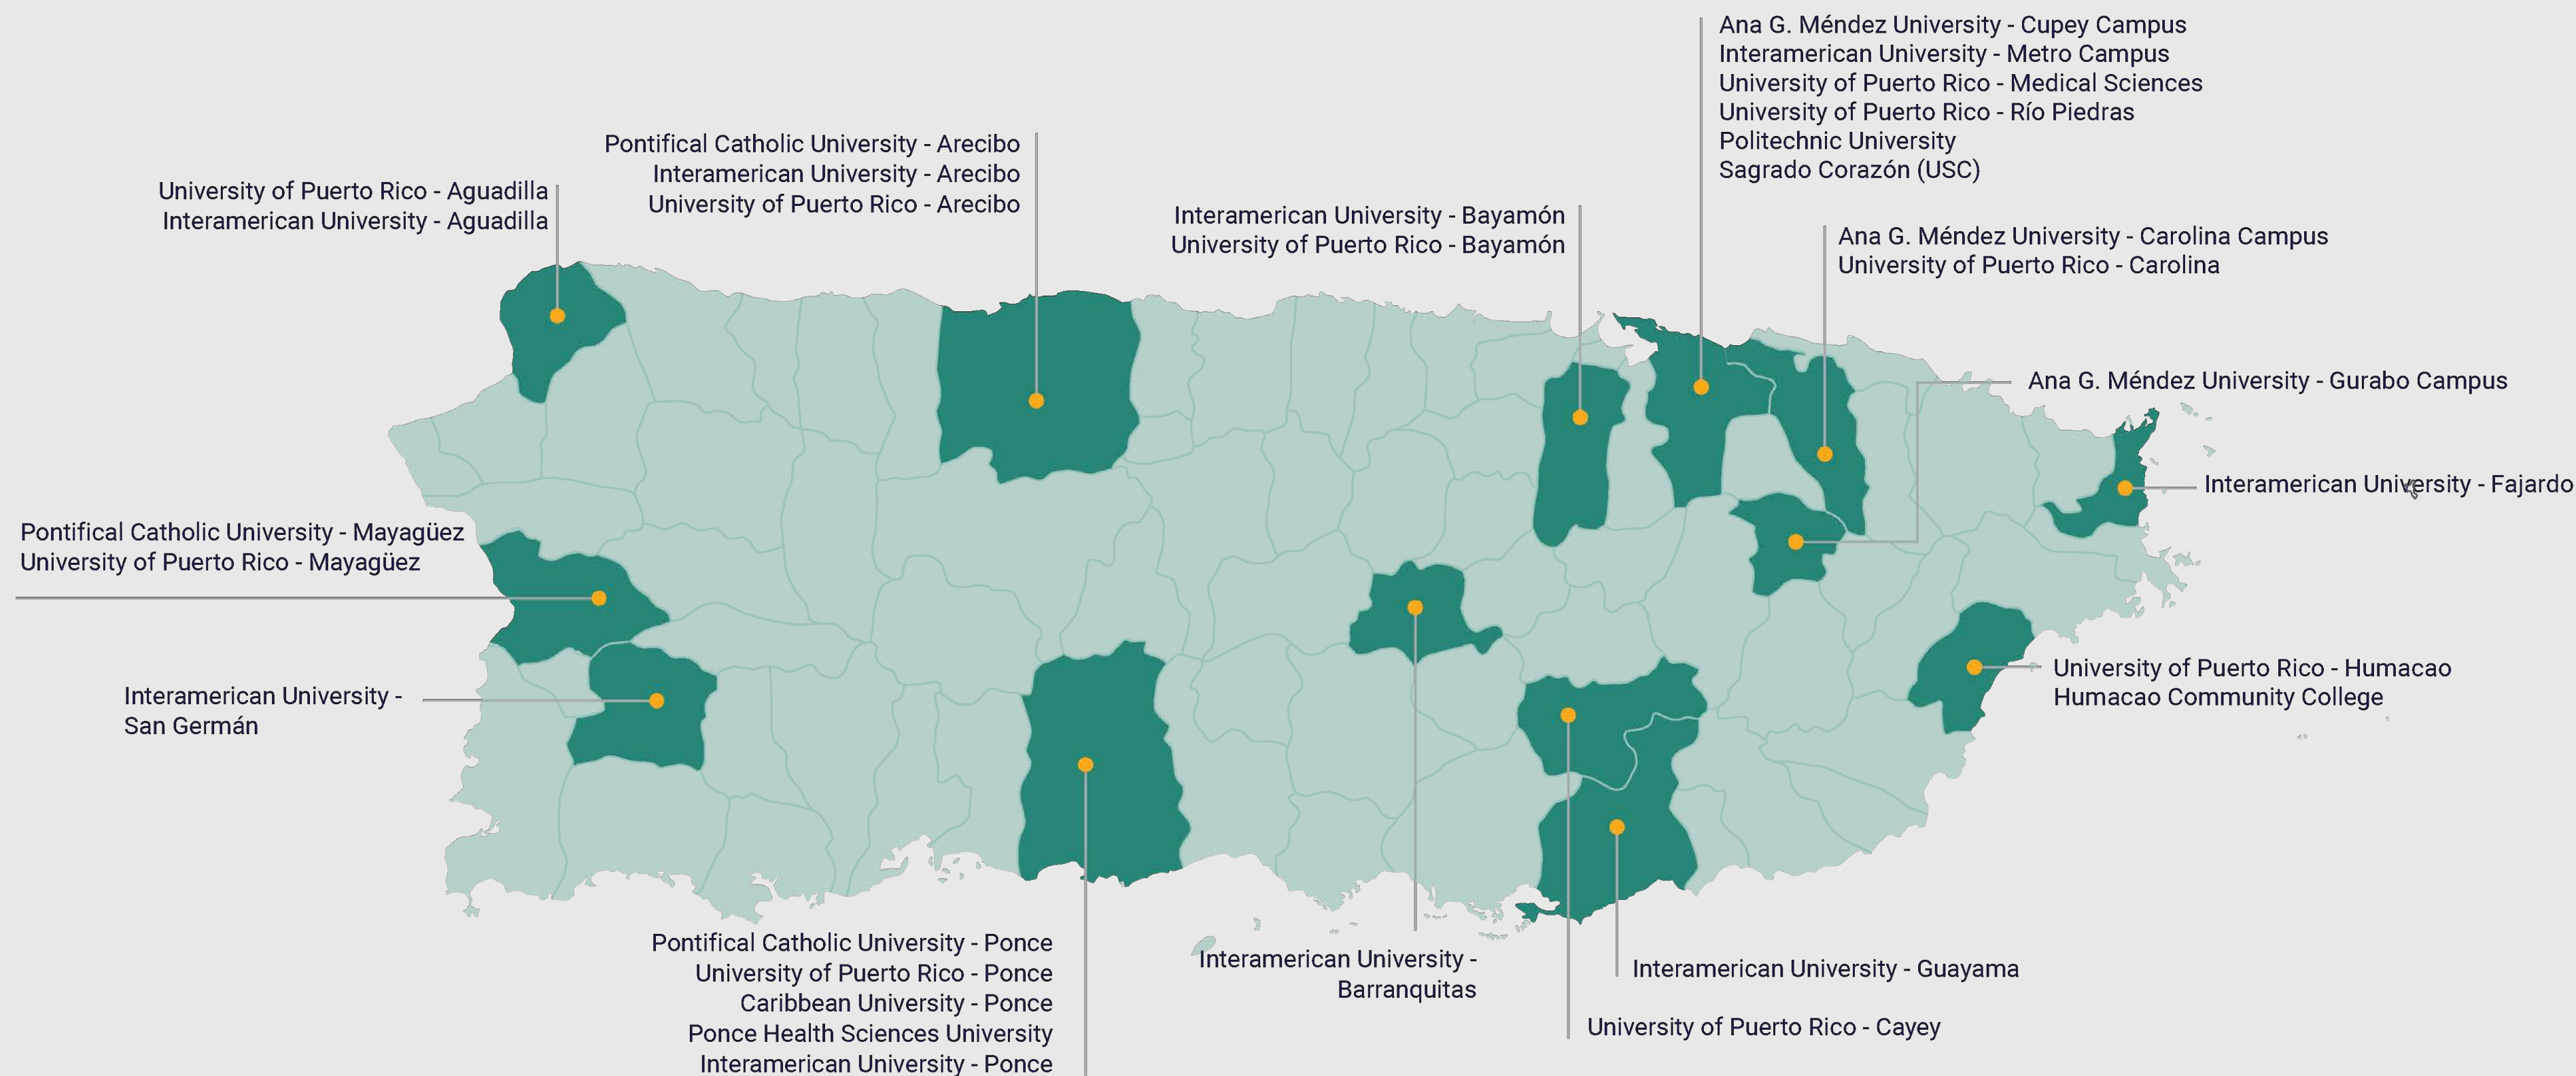

1. Businesses migration from Europe, US, and India to places like Latin America and Dubai, due to high taxation and unclear regulations.
2. Puerto Rico can set its own tax rates, with some as low as 4% with no federal tax, compared to US rates starting at 21%.
3. Additionally, Puerto Rico imposes zero capital gains tax, which is beneficial for **zByte** as it anticipates significant capital gains in the future.
4. Puerto Rico also holds personal appeal for Kumar as it resembles his home state of Kerala with its beautiful Caribbean setting, abundant fruit trees like mangoes and Kerala bananas, and a rich seafood culture that his wife particularly enjoys.

Academia

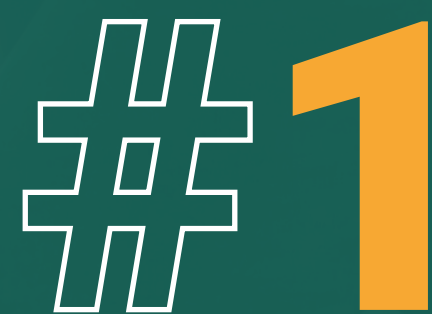

Tap into Our People Power

+80

Puerto Rico is home to over 80 institutions of post-secondary learning, including universities, colleges, community colleges and technical institutes.

Academia Our People Power

#1 in the US graduating Hispanic engineers.

18,000
undergraduate
2,500
post-graduate

Degrees awarded in STEM and health fields annually totaling 50% of university graduates.

#1 In the US graduating Underrepresented Minorities in Engineering.

Top 25 in graduating both Chemical & Industrial Manufacturing Engineers.

Over 35 research centers focusing on: Organism Behavior, Nanotechnology, Cellular | Molecular Biology & more.

In 2023, the federal govt designated the Puerto Rico Bio Tech Hub to continue advancing the region as a global leader in biotechnology

Workforce Top-Notch STEM Talent

#1

in the US in terms of percentage of labor force working in STEM field.

50k

Skilled tech workers will join PR's workforce by 2035 due to the 21st Century Techforce program - making us a top 10 jurisdiction for tech talent.

Highest concentration on both Pharmaceutical and Medical Manufacturing professionals in the US.

Industry	Puerto Rico # Employees	Puerto Rico Avg. Yearly Salary	US Avg Yearly Salary	PR Location Quotient (LQ*)
Pharmaceutical and medicine manufacturing	14,123	\$72,000	\$115,000	6.39
Medical equipment and supplies manufacturing	13,743	\$41,500	\$82,000	6.38

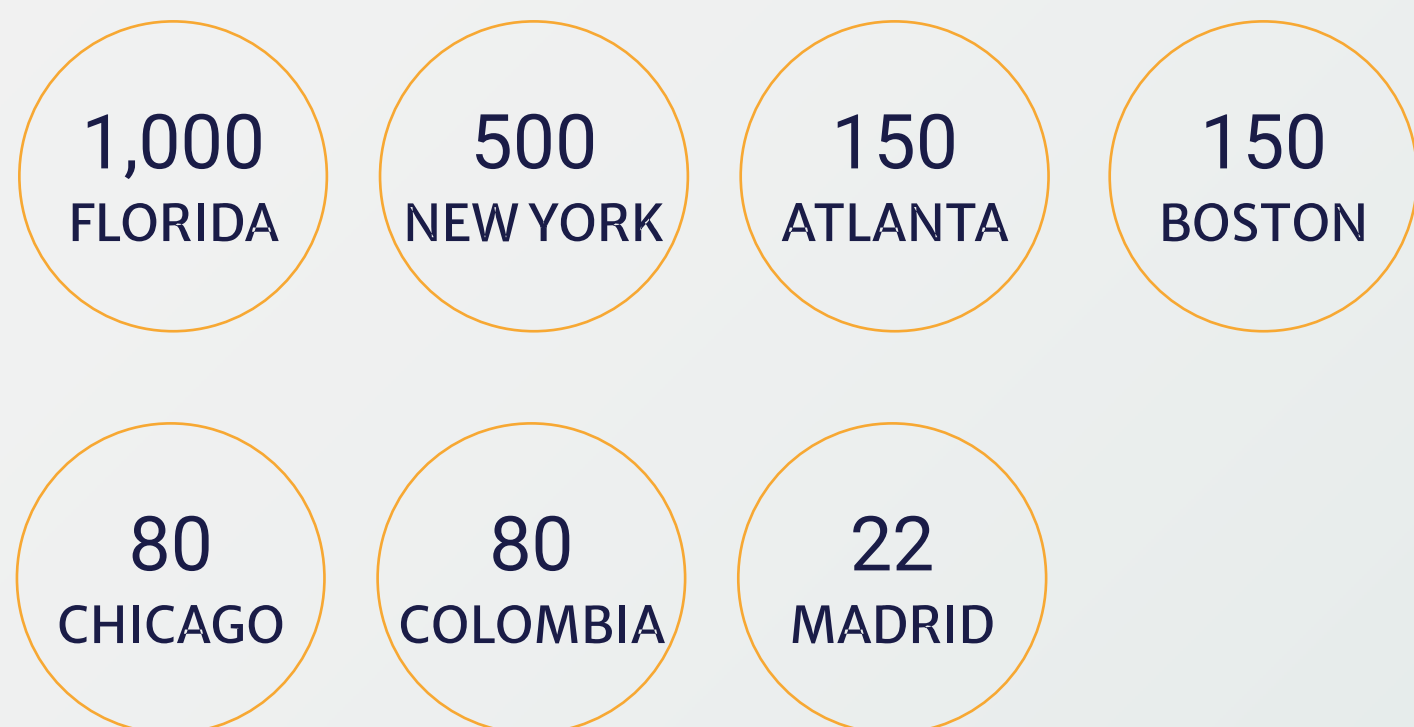

*The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

Connect to The Americas

Puerto Rico's Strategic Location Makes It the Ideal Entry Point To North & Latin American Markets

- ▶ Direct access to east coast, Europe, and LATAM.
- ▶ The San Juan Airport is the largest airport in Puerto Rico with non-stop passenger flights scheduled to 48 destinations in 14 countries with airlines flying from and to San Juan.

GDP Compliant Airlines

Passenger Airlines

Leverage World Class Logistics Infrastructure

Puerto Rico's new Life Sciences Air Cargo Logistics Community converges all supply chain elements with the goal of emerging as the foremost hub for Life Sciences in the Americas

- ▶ The new **Puerto Rico Life Sciences Air Cargo Community**, supported by InvestPR and the Puerto Rico Department of Economic Development and Commerce (DEDCC), includes airlines, airports, forwarders, integrators, pharmaceutical and medical device manufacturers, ground handlers, and haulers.
- ▶ Aims to improve the **overall quality** of airfreight-related operations in Puerto Rico by adopting best practices and a standardized way of operating.

Looking to tap into the cold chain market

- ▶ The new Puerto Rico Air Cargo Community is helping new companies obtain the International Air Transport Association (IATA) Center of Excellence for Independent Validators (CEIV) certification.
- ▶ The initial focus of the Puerto Rico Life Sciences Air Cargo Community has been on cold chain management, specifically addressing temperature-controlled shipping requirements.

Benefit from Unique Tax Incentives

Tax incentives are organized under The Puerto Rico Incentives Code - Act 60 of 2019.

- ▶ Puerto Rico's unique position as an unincorporated U.S. territory allows Puerto Rico to offer some of the most attractive tax incentives in the world.
- ▶ Under Internal Revenue Code §933, Puerto Rico sourced income is excluded from U.S. federal tax. Puerto Rico corporations are treated as foreign corporations for U.S. income tax purposes.
- ▶ Act 60 incentivizes eligible activities in the following areas:
 - ▶ Export of Goods & Services
 - ▶ Individuals
 - ▶ Finance & Insurance
 - ▶ Visitors Economy
 - ▶ Manufacturing
 - ▶ Agriculture
 - ▶ Infrastructure & Green Energy
 - ▶ Creative Industries
 - ▶ Entrepreneurship
